1

[General description of infectious diseases with the sillage-oral mechanism of transmission.
Typhoid. Paratyphoids A and B](#)

Test items

2

ГТ1, КУКл

Calendar-themed study plan of Infectious Diseases 5-year

Written by Infection

Wednesday, 24 November 2021 02:00 - Last Updated Wednesday, 21 September 2022 05:27

2

A diarrheal syndrome in the clinic of infectious diseases. Salmonellosis . Alimentary infection of viral etiology with the sillage - oral mechanism of transmission (enteroviral diseases, rotaviral infection). Poliomyelitis

Test items

2

ГТ1, КУКл

3

Types of water-electrolyte balance violations. Dehydrational shock. Cholera

Calendar-themed study plan of Infectious Diseases 5-year

Written by Infection

Wednesday, 24 November 2021 02:00 - Last Updated Wednesday, 21 September 2022 05:27

Test items

2

ГТ1, КУКл

4

Intestinal infections with the preferential affection of colon: shigellosis , amebiasis. Protozoal intestinal invasions: lamblia-
balantidiosis

Test items

2

ГТ1, КУКл

5

Yersiniosis (intestinal pseudotuberculosis) Botulism

Test items . Test items

MC 2.

Infectious diseases with mechanism of transmission

Order in the library.

The electronic version.

9

General description of infectious diseases with mechanism of transmission. Flu. Other

Test items

2

ГТ1, КУКл

10

Infectious diseases with atypical clinical of pneumonia: mycoplasma pneumoniae, psittacosis.

Calendar-themed study plan of Infectious Diseases 5-year

Written by Infection

Wednesday, 24 November 2021 02:00 - Last Updated Wednesday, 21 September 2022 05:27

Test items

2

ГТ1, КУКл

11

Herpes virus infections.

General description of herpes virus infections, etiology, structure, place in infectious pathology. Infectious

Test items

2

ГТ1, КУКл

12

Herpes virus infection. EBV-infection and CM V-infection. Infectious mononucleosis

Test items . Test items
